OBJECTIVE

Computer Science postgraduate student with strong foundations in Python, machine learning, and full-stack web development. Seeking an internship opportunity to apply analytical and programming skills in solving real-world problems.

TECHNICAL SKILLS

Programming:
- Python
- Basics
- Handling Datasets using NumPy & Pandas

Database:
- SQL
- Basic & Intermediate: DDL, DML, TCL and DCL statements, Functions, Constraints, Grouping, Sub queries and Co-related Sub-queries, Joins, Nested Selects

Data Visualisation

Machine Learning:
- Basics

Web Technologies:
- HTML, CSS, Javascript

Others:
- Tools:
- Oracle SQL Developer
- IDE (PyCharm, Colab, Anaconda, JupyterLab)
- Competent at data pre-processing.
- Good analytical mind set for data preparation.

TRAINING

Trained @ ITSkillMax, JP Nagar 1st PHASE, BENGALURU
PERIOD: *MAY 2025 to Till date*

- Learning to use database system, manage large files & run reports to analyze data.
- Learning to use NumPy and Pandas for data manipulation/analytics.
- Database query using SQL.
- Descriptive Statistics.
- Manual Testing Concepts
- Python basics
- Data Analyzing Using MS Excel

Projects:

JOB PORTAL - Capstone project using HTML CSS JS

- User Authentication: Allows users to sign up and sign in with form validation using JavaScript.
- Job Application Form: Users can fill out job application forms with personal and professional details.
- Edit Functionality: Users can edit their profiles and applications anytime
- Status Tracking: Applicants can view real-time updates on their application status (e.g., Submitted, Reviewed, Rejected).
- Frontend Stack: Entirely built using HTML, CSS, and JavaScript with local storage for data handling.

EDUCATION

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
M.Tech in CSE (Internet of Things) - Pursuing	University of Visvesvaraya College of Engineering Bengaluru	8.89 CGPA	Expected Graduation August - 2026
B.E. in CSE (AI & ML)	Don Bosco Institute of Technology, Bengaluru	8.31 CGPA	June 2024
PUC	Bharathi PU College	65.5%	March 2020
SSLC	Sri Cham Sugar School |	62.24%	April 2018

ACADEMIC PROJECTS

Age and Gender Prediction using ML

• Built a Streamlit-based GUI app using CNN for predicting age/gender from images.

• Technologies used: Python, OpenCV, Machine Learning, Streamlit.

Online Birth Certificate System

• Designed and implemented a full-stack system to manage birth records.

• Technologies used: PHP, MySQL, HTML/CSS.

DDoS Attack Detection System

• Predicted application layer attack patterns using machine learning.

• Integrated cybersecurity and networking techniques to enhance defense

STRENGTHS

- Good Communication skill
- Hard worker
- Disciplined & Responsible
- Decision making
- Compassionate

CERTIFICATIONS

- Python programing certified by Talent Battle.
- TCS iON Career Edge – Young Professional certified by TCS iON.
- Introduction to Artificial Intelligence certified by Infosys Springboard.
- Introduction to Data Science certified by Cisco.
- Introduction to Generative AI certified by Google.

HOBBIES

- Travelling
- Listening Music
